

# WEB DESIGNER - KAMAL AND SHAFWAN

## OBJECTIVE:

Our page output template needs to appear like this after designing, we can make few changes according to our idea at final.

Reference video link for above template: [Navigate Me!](#)

## PROCEDURE:

Please follow the below links for your development:

Cool! Create website with AI: [Navigate me to 10web.io !](#)

Still not getting watch the video: [Ok, I go with video !!!](#)

Still here, This is the website made and deployed by me(Rahul) and Vadepeer:

[Navigate to cool website by Rahul !](#)

Here is the drive link for the same:

[Alexa !!! Navigate to Rahul source code !](#)

ChatGpt...ChatGpt...ChatGpt I avoid but ChatGpt likes me:

Build website with ChatGpt in easier way: [Let see how ChatGpt likes me!!!](#)

ChatGpt is really intelligent !!! The ChatGpt give me website in 10 minutes then I will agree to Rahul Balaji :

Video link to know about website generation from ChatGpt:

[I can do in 10 secs itself !!!](#)

## OUTPUT:

I will explain that how the output should be in GMeet. Take screenshot during the meeting.

## RESULT:

Thanks for tuning up the journey by making a best interactive website. Submit your work through my mail ID or whatsapp friends. Rate my resources out of 5stars.

Thank you !!! Wait for tasting the success!!!
